Cover Map for Turkey Chapter I NIS

25X1A9a

1. In response to a request from [REDACTED] to prepare a "cover map" for the Chapter I on Turkey, the following facts should be weighed in justifying assignment of man-hours to the project:

a. An estimated 40 to 50 man-hours will be required to prepare a new map.

b. The "cover map" for Yugoslavia (#13794) currently available can be altered with minimum effort and would, in our judgment, prove adequate.

c. The assignment of D/OC man-hours to NIS is currently very heavy and preparation of a new map would compete with the completion of our contribution to the Chapter I on Bulgaria due in proof form by 5 June 1957. We are currently behind schedule on the terrain plate for this map.

2. I would appreciate a reconsideration of this request.
